

The journey of MyPup becoming a Certified B Corp®

In 2022 MyPup saved 81,994 kg of CO2 and nitrogen *

That's 603 flights from Amsterdam to London

In 2022, we saved a total of 303,755 km in rides

Our lockers are made from recycled materials thanks to our partners

Our delivery is carbon neutral because we use electric vans and cargo bikes

BREEAM NL

Installing a Pick Up Point counts as an innovation point in the Dutch BREEAM certification

Our suppliers work with employees with a labour market disadvantage

Every year MyPup donates to a different charity. In 2022 we supported Ukrainian refugees

Our delivery drivers have fair working conditions and are permanently employed by us

The MyPup team volunteers to support our local community

These steps and more contributed to our B Corp certification!
